

Gregory Fox

I have served as the Uniform Commercial Code Committee Chair or Co-Chair for several years and would like to continue in that role. Our WSBA committee participated in the successful enactment of the recent UCC model amendments in Washington, and we provided education on the amendments to our committee. I am passionate about the UCC and have participated in other organizations focused on furthering the implementation and purposes of the UCC, and educating the legal community about the UCC, including as a fellow of the American College of Commercial Finance Lawyers and as co-chair of the ABA Business Law Section's joint committee on Security Interests in LLC's and Partnerships.
