

Ryan Griffie

To whom it may be concerned:

Representing privately held businesses and their owners through each stage of life, from formation through dissolution, and transitions such as mergers and acquisitions, is a regular and significant part of my practice. After more than a decade of practice, I believe I can bring some practical perspective to the challenges and opportunities facing our Section's members. I had the privilege of volunteering for the WSBA young lawyer committee early in my career and have greatly enjoyed the enduring feeling of the comradery we built within that group. I would welcome the opportunity to bring a "growth" mindset to support this Section. and I am eager to learn how we can better serve together. Thank you for your consideration.
