

Olivia Holder

I started the Privacy and Data Security Committee of the Business Law Section several years ago with the help Diane Dick in 2021. For the last four years I have participated in the growth of this committee including building core committee team members and developing continuing education and student programming. I would welcome the chance to work with the executive committee again on further scaling our committee's efforts to educate Washington attorneys and law students on emerging issues in this rapidly developing field of law.
