

Statement of Interest from Brian Ferrasci-O'Malley for At-Large Position

Hello, fellow ELUL members,

My name is Brian Ferrasci-O'Malley and I would be honored to serve as an at-large member of the WSBA Environmental and Land Use Law Section Executive Committee. I am a partner at Nossaman LLP, based in our Seattle office, and my practice includes both transactional work and litigation in the environmental and natural resources arenas.

During my legal career, I have worked in private practice, for the federal government, and as an in-house attorney for a large environmental non-profit. Prior to becoming a lawyer, I was an environmental consultant directing habitat restoration and community-based conservation projects across Washington State and Montana.

I would very much like to give back to the ELUL section that has informed and supported me throughout my legal career. As one of the co-chairs of the 2021 ELUL Section Midyear Conference, I got to see first-hand the important role that the Executive Committee plays in organizing high-quality events, communicating important information to members, and encouraging the next generation of Washington environmental lawyers.

I believe that I would be a good fit for the Executive Committee given my diversified background, attention to detail, and prior experience assisting with WSBA events. I would greatly appreciate your vote.
