Statement of Interest- At Large Board Member WSBA IP Section Executive Committee

My legal practice is entirely focused on IP development and protection of the life sciences tools industry. I appreciate the opportunity to serve the WSBA as part of the executive committee of the IP section in order to bring the viewpoint of the life science tools industry to this group. Further I look forward to learning from other colleagues and members of the committee about their viewpoints from their own industries, and an exploration of how these business viewpoints interact within the framework of IP law. Currently I am President of the Washington State Patent Law Association (WSPLA), and my time on that Board has been a rewarding experience. I look forward to also working with a group that has a broader legal outlook beyond patent law specifically.
