

It has been an honor to represent the members of the WSBA through my service as the 8th Congressional District Governor and then as an At-Large Governor to the Board of Governors (BOG). Now that my time on the BOG has come to an end, I seek the opportunity to continue my service to our profession by serving on the Executive Committee. Much of what I hope to accomplish is the same as my time as a Governor, that is relationship-building with members of the section to facilitate for the things that I believe are imperative to our members – including organizing continuing education sessions and building support for supporting legislation that directly impact our members.

I hope my first-term record speaks to my dedication. I diligently met with leaders and attended meetings for which I acted as an official liaison back to the Board of Governors. As an Member of the Executive Committee, I make one promise—to expand this ambassadorial role to encompass *all* of our members. I come with no entrenched policy positions, other than to continue to listen and let your voice guide my rigorous deliberation and transparent thought process behind every the actions of the Executive Committee.
