**Personal Interest Statement for the World Peace Through Law's Executive Committee**

Dear Executive Committee

I am a Senior Children's Attorney with the International Rescue Committee in Washington. My undergraduate degrees are in International Affairs and Criminal Justice. In law school I completed year-long International Human Rights clinic where I worked with former Colombian child soldiers and service providers. I currently work with unaccompanied children coming from all over the world. My goal has always been to use the law as a tool for good. Most of my post law school practice has centered around immigration and I maintain an international lens in what I do. I want to stay connected to the international legal community and continue to work on issues impacting human rights globally. This executive committees would be a great way to connect and serve.

Thank you for your time and consideration

Kelsey Jevitt
